Tools/ Platforms	Visual studio code (VS Code), Leet-Code, Windows.

PROJECTS

ATM TRANSACTION. A project for creating new customer account, here customer can do credit, debit and transfer of money along with transaction history and many other features.

Bengaluru Tourism Website. The attractions, cultural landmarks, and experiences Bengaluru boasts about are spoken of in varied ways on the website. This ease of exploration among destinations can include views of images and planned visits, all done with responsiveness in design.

SPOTIFY UI CLONE. Developed a clone of Spotify web page along with music player bar in it. Technical Stack used is HTML and CSS.

My Portfolio. Below is a showcase of my portfolio, which I built in Next.js, articulating my skills, projects, and expertise in web development. It narrates the whole journey of me being a developer through dynamic illustrations of pages regarding my work, which falls under MERN stack, Java algorithms, and front-end design. It is fully responsive, optimized for performance, and integrated with GitHub for displaying live code and contributions. Go ahead and take a look through my journey, skills, and projects to learn more about my passion for innovatively building web solutions. [click here](#) to check the portfolio.

EXTRA-CURRICULAR ACTIVITIES

- Junior Co-ordinator in the college fest.
